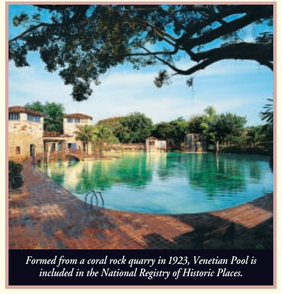
The • City • Beautiful

The lush tropical beauty of hibiscus, poinciana, banyan and bougainvillaea frame stately Spanish Colonial architecture on quiet streets that seem to come from another time. In Coral Gables, the timeless grace and grandeur of 18th century Spain comes together with the excitement and energy of the Americas. Coral Gables is an elegant, easygoing residential community and a new world capital of international commerce. It was planned like no other city in the country and has evolved like no other city in the world.



Formed from a coral rock quarry in 1923, Venetian Pool is included in the National Registry of Historic Places.
